Frameworks — Node (Express), React, Redux, React Router, Vue, JQuery, Pandas, Numpy

Databases — PostgresSQL, Redis, MongoDB

Testing — Jest

Tools — Git

LANGUAGES

English — Native

German — Intermediate

French — Advanced

PROJECTS

PIG PEN SOCIAL NETWORK

A single-page social media application built with React and Material-UI. Features a live chat-room, password reset, photo uploading, form validation and error handling,
Technologies: React, Redux, Node, Express, PostgresSQL, AWS, Socker.io, Javascript.

FUNKY CHICKEN DESTROYER

An online multiplayer retro arcade game built with the Phaser. Each player controls a chicken and fires eggs at the other player to lower their health.
Technologies: Phaser 3, Socket.io, Express.

DREAM IMAGE BOARD

A fully-featured image board built with Vue.js and AWS. Includes image uploading, comments, usernames, and keyboard controls.
Technologies: Vue, Amazon Web Services, Express, PostresSQL

EDUCATION

FULL-STACK WEB DEVELOPMENT BOOTCAMP

Spiced Academy | Berlin, Germany | March 2020 - June 2020

Built responsive web pages and full-stack web applications with HTML, CSS and Javascript, React and Vue. Learned programming fundamentals, the principles of responsive web-design and mobile-friendly development.

BACHELOR OF ARTS, POLITICAL SCIENCE AND ECONOMICS

Vassar College | Poughkeepsie, New York | 2014 - 2018

GPA 3.83/4, General Honors, Departmental Honors

WORK EXPERIENCE

TECHNICAL WRITER

Gnosis | Berlin, Germany | Sept 2018 - March 2020

- Produced a wide range of technical writing, think pieces for Gnosis, including a flagship monthly development update and major product announcements.
- Edited all communications content, and performed data analysis on Twitter engagement to shape the companies social media strategy and significantly improved outreach.

HEAD OF CONTENT

Berminal | New York, New York | May 2018 - August 2018

- Oversaw all content-related matters on the Berminal blockchain and cryptocurrency news platform.
- Managed a group of 8 content creators, led the production of the Daily Berminal Brief newsletter, and grew the product user base by over 1000%

RESEARCH CONSULTANT

Yale Policy Lab | New Haven, Connecticut | Jan 2017- June 2017

- Collaborated with a research group led by Dr. Andrew Papachristos and Dr. John McDougall which explored food insecurity in urban areas.
- Investigated data trends with R and wrote a report to inform food policy in New Haven.
